

Greetings,

I would like to remind all Heralds and Pursuivants that quarterly reports were due to your Regional Herald by September 30. If you have not already sent yours, please do so now. Only local pursuivants for incipient groups need to send me a copy. Please send in your reports and let us know what has been happening in your group, or just to let us know that you are alive and would like to keep your warrant active. Local pursuivants that are consistently not sending reports will be removed from the warrant roster.

Fall Crown Tournament is this month, so anyone interested in crying (or learning to cry) the tournament should contact Master Vorlin, Meadows Herald, or see him before the start of the tournament.

I have received a request from a gentle to release the device of the defunct branch known as the March of Three Swords, mundanely located in the Youngstown and Warren Ohio area. In accordance with the SCA Heraldic Administrative Handbook, this notice is being published in the Pale for commentary. The device was registered in August 1984 with the blazon "Per pale gules and azure, two swords in saltire surmounted by a sword in pale proper, and in chief two laurel wreaths Or." If anyone has commentary on this proposed action, please send your remarks to Their Majesties, the Kingdom Seneschal and myself by December 1, 2006.

Thorvald
