

Greetings unto the great populace of the Midrealm from Baroness Kristiana of Arden, Kingdom Minister of the Arts and Sciences,

Summer is here and Pennsic War 38 is right around the corner. It looks to be a great war this year! Please look at taking some of the great classes listed. There are SO many to choose from. The Arts and Sciences Display is scheduled for Monday, August 3. I encourage you to display your projects and come and see what the populace of the Known World can produce. The Pennsic A&S Display Coordinator encourages people to pre-register if you are interested in displaying items at Pennsic. The Youth Arts and Sciences Display is scheduled for Tuesday, August 4. They have also asked the youth to pre-register their entry. Please go and show your support to the A&S.

I would like to announce my decision for the Historical Combat Deputy. After receiving some very impressive resumes of those who were interested, I have chosen Sergeant Patrick von Brandenburg to succeed Master Philippe de Lyon as the Historical Combat Deputy. Patrick will bring a great deal of knowledge and energy to the position. Thank you to all who applied for this position. It was not an easy choice.

Applications for a Drop Dead Deputy to the KMoAS are still being accepted. I encourage anyone who is interested to send me a resume and brief cover letter. Please have them to me no later than August 1, 2009.

I encourage all local A&S officers to try and have some sort of A&S display at your local events.

If you have any questions or just want to share ideas, feel free to reach out to me.

Learn, Make and Teach

Kristiana
