

Greetings unto the great populace of the Midrealm from Baroness Kristiana of Arden, Kingdom Minister of the Arts and Sciences,

The Kingdom Art & Sciences Faire and RUM are done for the year and it's time to think about working on new projects for the summer and the Craftsperson Faire in the fall! I would really like to thank the traveling Arts and Sciences staff for traveling the long distances to help at the regional Faires and big thanks also goes out to the regional A&S officers for running wonderful Arts & Sciences Faires to showcase the entries at.

The Midrealm Arts and Sciences website will be making some updates during the next couple of months and I encourage everyone to be patient while we get items updated. I hope to post my monthly Pale letters there and have reporting dates and local officers' information updated.

I am looking for a Drop Dead Deputy to the KMoAS and will be accepting resumes for the position. I highly encourage everyone who is interested in applying for the job and learning about the office, to please send me a resume and brief cover letter. Please have them to me by August 1, 2009.

Pennsic War is right around the corner. Please look at taking or teaching a class. There are SO many to choose from.

The Midrealm 40th Year Celebration is in October and I am looking for displays of your first A&S project and your last/master work pieces. We'd like to show the evolution of SCA projects to the populace. If you have something for display; please contact me. Space is limited and I am looking for a wide range of SCA projects to display. More information about this can be found on the event website.

I would also like to ask that all current A&S officers at the local and regional level contact me at kristiana@midrealm.org so I can continue to update the contact information of all the A&S officers in the Midrealm. If you have any questions or just want to share ideas, feel free to reach out to me.

Learn, Make and Teach
