

Armor: Non-Metal

Category Rules: The category includes armor made from non-metal materials such as cloth, leather or horn. Kydex and other thermoplastics will be accepted as only modern substitutes for leather and horn. The armor is placed in the category based on its predominant material of construction. For example, a cloth gambeson with attached elbow cops will be entered under this category. Cloth and leather armor include gambesons, aketons, buggcoats, leather scale, arming caps, gamboised cuisses, etc. Entries must be modeled either in person (but not necessarily by the entrant) or via photographs from all angles in order to judge fit under the Scope and Skill sections.
