

Weaving: Tablet

Category Rules

This category is for textiles produced using tablet or card weaving. The entrant must specify the tablet-weaving technique used to produce the entry and the planned use of the entry in the documentation. **The use of synthetic gold or silver thread will be considered an acceptable alternative for real gold or silver thread and will not be penalized.**

Research and Documentation (Score: 0-4 points)

- 0 No documentation provided with entry. Face-to-face judging adds very little information.
- 1 Minimal information is provided for time, place and style. Face-to-face judging adds some background information.
- 2 As in #1, generalized sources are given with no emphasis on primary and/or scholarly resources. In face-to-face judging, no further understanding of the resources is evident. Materials and methods of construction of the entry are described.
- 3 As in #2, there is a good balance of resources: primary and/or scholarly sources well supported by other resources. Documentation and/or face-to-face judging provides well developed discussion of research. Materials and methods of construction are described and the reasons for the choices made are discussed.
- 4 As in #3, in-depth and extensive documentation provides a good balance of resources, emphasizing primary (if available) and/or scholarly resources backed up with a significant selection of other resources. Documentation and/or face-to-face judging provide a good explanation of original research and experimentation related to the research. Face-to-face judging indicates a keen grasp of the research and the entrant can discuss it easily with active engagement. Appendices included in documentation (if any) help provide further pertinent information to subject and time period.

Materials and Methods (Score: 0-4 points)

- 0 Entry is completely modern with no relationship to period elements or practices.
- 1 Use of modern materials and methods to produce a work that would not be accepted in period but either bears some relationship to an authentic work or which might be useful within SCA culture. Entry is inconsistent to period, location, and persona.
- 2 Use of **both** modern materials and methods to produce a work that looks or feels authentic to the time period, location, culture, and economic class for which it was constructed (ex. machine sewing not obvious when worn, fabric appears correct).
- 3 Use of **either** modern materials **or** methods to produce a work that looks or feels authentic to the relevant time period, location, culture, and economic class.
- 4 Use of materials and methods entirely documentable to the period for which it was constructed (ex. hand-spun wool, silk, or linen thread; hand-dyed thread by period process; colors consistent with period dyestuffs or the use of modern materials in a

way that does not detract from the appearance and feels appropriate to the relevant culture. Substitutions of modern materials for those no longer readily available will not be penalized so long as an effort has been made to substitute materials with a close appearance and drape/hand to the original. Type of substitution, as well as how the substitution compares to period material, must be clearly explained in documentation.

Scope (Score: 0-6 points for each bullet item)

Rank the **ambition**, not the success, of the entry for each of the following elements.

- Design or pattern: consider higher scores for complex/multiple designs and/or original designs/adaptations.
- Scope of endeavor: number of tablets used, size of thread, type of fiber (mercerized cotton - fine wool), length of piece. Extent gone to ensure authenticity of patterns, techniques, and materials used.
- Technique: suggested scoring (a representative sampling of tablet weaving techniques are listed below as examples).
 - 1 Plain weave, all tablets turned in same direction.
 - 2 Threaded-in patterns with simple turning sequences.
 - 3 Threaded-in patterns with eccentric turning sequences, double-face double-turn patterns.
 - 4 Intricate double-face double-turn patterns, simple brocades.
 - 5 Intricate brocades, simple geometric 3/1 broken twill patterns.
 - 6 Complex figures in 3/1 broken twill patterns, 'Sartemo' technique.

Skill (Score: 0-6 points for each bullet item)

How well is the entry made? Rank the **success** of the entry for each of the following elements.

- Evenness and tension.
- Neatness (including selvages, starts and stops).
- Development and consistency of pattern and weave.
- Handling of materials.

Optional

- Finishing.

Ingenuity (Score: 0-4 points)

Judge the ingenuity of the entry. Was the entrant resourceful and inventive in the approach to creating their entry? Does the entry reflect the entrant's vision of period context? Is original thought, contemplation, interpretation, and vision evident according to the entrant's period?

Judge's Observation (Score: 0-6 points)

Rank the entry as a whole. How well do all the separately judged parts fit together? The entry's overall effect is judged in this section. This is the only section of the criteria where the judges may allow their personality, private opinions, and personal preferences to influence scoring.
