Research and Documentation (Score: 0-4 points)

- 0 No documentation provided with entry. Face-to-face judging adds very little information.
- 1 Minimal information is provided for time, place and style. Face-to-face judging adds some background information.
- 2 As in #1, generalized sources are given with no emphasis on primary and/or scholarly resources. In face-to-face judging, no further understanding of the resources is evident. Materials and methods of construction of the entry are described.
- 3 As in #2, there is a good balance of resources: primary and/or scholarly sources well supported by other resources. Documentation and/or face-to-face judging provides well developed discussion of research. Materials and methods of construction are described and the reasons for the choices made are discussed.
- 4 As in #3, in-depth and extensive documentation provides a good balance of resources, emphasizing primary (if available) and/or scholarly resources backed up with a significant selection of other resources. Documentation and/or face-to-face judging provide a good explanation of original research and experimentation related to the research. Face-to-face judging indicates a keen grasp of the research and the entrant can discuss it easily with active engagement. Appendices included in documentation (if any) help provide further pertinent information to subject and time period.

Materials and Methods (Score: 0-4 points)

- 0 Entry is completely modern with no relationship to period elements or practices.
- 1 Use of modern materials and methods to produce an item that would not be accepted in period but either bears some relationship to an authentic work or might be useful within SCA culture.
- 2 Use of **both** modern materials and methods to produce a work that looks, feels, or tastes authentic to the intended time period or culture.
- 3 Use of **either** modern materials **or** methods to produce a work that looks, feels or tastes authentic to the intended time period or culture without explanation of any substituted materials.
- 4 Use of totally authentic materials and methods (hand-prepared materials, etc.) to produce a work that looks, feels, or tastes authentic to the intended time period or culture. Any substitutions and the period materials/methods are thoroughly explained. Substitutions of modern components and embellishment materials which are no longer readily available will not be penalized so long as an effort has been made to substitute materials with a close appearance to the original.
